

the difficulty in getting an energy policy on the ground. In any bill as complicated as this, everyone has a different view and everyone can change things a bit. This has become a collective bill, put together by the House, the Senate, Democrats, Republicans, people from New England, people from all over. We have a mixture of ideas. I would not have done it exactly this way had I been doing it by myself, but I think it is important to have a policy to move on, dealing with our demand for energy, and moving in the direction we want.

In general, this is a good bill. This is a bill that moves us forward for energy in the future, the kind of future in which we can work on our conservation methods and, hopefully, reduce the demands we have—at least the growth level we have had in the past—and that we can find alternative fuels.

As we move forward, we are looking now at coal as the basis for hydrogen. That can be very important. Imagine if we developed hydrogen cars next year and were ready to go with them as a clean and available source. How long would it take to get the delivery system in place, to get hydrogen stations instead of gas stations all over the country?

When we think about potential changes out there, we have to think about reaching that point. We must continue to provide energy as we now know it, as we move toward something different. All this talk of more oil and gas, we will have renewables. Good luck. What are we going to do in the 15-year-period of transition?

I hope we continue to look at a balanced policy with conservation, alternatives, domestic production, research, more cleanliness in production, and so on.

We will continue, I suppose, to talk about this matter for a while. I am disappointed that apparently there is going to be a reluctance to let us move forward with it as quickly as we should. We are trying to complete some business this week, and yet it is going to be very difficult to do that.

"(2) A new Philippine Scout."

SEC. 422. REPEAL OF LIMITS ON TERMS OF CERTAIN OFFICIALS IN OFFICE OF UNDER SECRETARY FOR HEALTH.

Section 7306 is amended—

(1) by striking subsection (d); and

(2) by redesignating subsections (e) and (f) as subsections (d) and (e), respectively.

Amend the title to read as follows: "A bill to amend title 38, United States Code, to improve and enhance the provision of long-term health care for veterans by the Department of Veterans Affairs, to enhance and improve authorities relating to the administration of personnel of the Department of Veterans Affairs, to authorize major construction projects for the Department of Veterans Affairs, and for other purposes."

Mr. SPECTER. Madam President, I have sought recognition today to explain briefly the provisions of S. 1156, the proposed Veterans Health Care, Capital Asset, and Business Improvement Act of 2003, as the ranking member of the Committee on Veterans Affairs, Senator GRAHAM of Florida, and I propose be amended to incorporate provisions contained in S. 1156 as reported by the Committee on Veterans Affairs on November 10, 2003, and also to contain provisions derived from H.R. 1720, passed by the House on October 29, 2003, H.R. 2357, passed by the House on July 21, 2003, H.R. 2433, passed by the House on September 10, 2003, H.R. 3260, passed by the House on October 8, 2003, and H.R. 3387, passed by the House October 29, 2003.

This bill, as so amended, incorporates agreements reached between the Senate Committee on Veterans' Affairs, which I am privileged to chair, and our counterpart committee in the House of Representatives, on legislation relating to the provision of health care services by the Department of Veterans Affairs. I thank the Ranking Member, Senator GRAHAM of Florida, and the Chairman and Ranking Member of the House Committee on Veterans Affairs, Representative CHRIS SMITH of New Jersey and Representative LANE EVANS of Illinois, for their advocacy for veterans and for their cooperation in resolving issues raised by the bills considered in our respective bodies. Inasmuch as S. 1156, as reported by the Committee on Veterans' Affairs, itself incorporated provisions drawn from nine separate Senate bills, S. 1156 as presented to the Senate today is properly viewed as a bill that incorporates provisions from 14 separate pieces of legislation. A bill containing such a range of material would not have been knitted together, as this one has been, without a spirit of cooperation and bipartisanship from the other body. The Ranking Member, Senator GRAHAM of Florida, and I appreciate the leadership of the House Committee on Veterans Affairs.

Since this is a lengthy bill—over 50 pages—I will not endeavor in this statement to explain in detail each and every provision. Rather, I will discuss the highlights briefly in this statement, and refer my colleagues to a Joint Explanatory Statement, which I ask be incorporated into the RECORD as if read, for a detailed explanation of the bill as amended.

The starting point for S. 1156, as presented to the Senate today, was S. 1156, the proposed Veterans' Health Care Authorities Extension and Improvement Act of 2003. That bill was marked up by the Senate Committee on Veterans' Affairs on September 30, 2003, and reported on November 10, 2003. S. 1156, as reported, contained a number of elements; its key provisions would have extended mandates that VA provide nursing home care and outpatient-based long term care services to our senior veterans; improved VA assisted living and mental health programs; modified VA personnel provisions relating to non-physician providers of healthcare services and employees of VA's Veterans Canteen Service; and authorized major medical facility projects and projects related to VA's Capital Assets Realignment for Enhanced Services, CARES, initiative. Each and all of these provisions, with some modifications as appropriate, are contained in S. 1156 as presented to the Senate today.

The major change between the bill, as reported, and the current bill is the addition of provisions contained in House-passed legislation. House-approved provisions incorporated into the bill would allow radiation-exposed veterans higher priority access to VA

health care; exempt former prisoners-of-war from pharmaceutical copayments; create in VA an Office of Research Oversight; authorize VA to allow "Saturday premium pay" to licensed practical nurses and nursing assistants; and authorize additional needed VA construction projects. All of these added provisions are constructive and useful.

I ask that my colleagues in the Senate approve this legislation. It is good bipartisan legislation that is supported by VA's extraordinary Secretary, the Honorable Anthony J. Principi, and by the major veterans service organizations.

I ask unanimous consent that the Joint Explanatory Statement that accompanies my statement today be printed in the RECORD.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

EXPLANATORY STATEMENT ON S. 1156, AS AMENDED—VETERANS HEALTH CARE, CAPITAL ASSET, AND BUSINESS IMPROVEMENT ACT OF 2003

S. 1156, as amended, the Veterans Health Care, Capital Asset, and Business Improvement Act of 2003, (hereinafter, "Compromise Agreement") reflects a negotiated agreement reached by the Senate and House of Representatives Committees on Veterans' Affairs concerning provisions in a number of bills considered by the House and Senate during the 1st session of the 108th Congress. The measures considered in this compromise are: S. 1156, as amended, as reported by the Senate Committee on Veterans' Affairs on November 10, 2003 (hereinafter, "Senate bill"); S. 1815 introduced on November 4, 2003; H.R. 2357, as amended, passed the House on July 21, 2003; H.R. 2433, as amended, passed the House on September 10, 2003; H.R. 1720, as amended, passed the House on October 29, 2003; H.R. 3260, as introduced in the House on October 8, 2003; and H.R. 3387, as introduced in the House on October 29, 2003 (hereinafter, "House bills").

The House and Senate Committees on Veterans' Affairs have prepared the following explanation of the Compromise Agreement. Differences between the provisions contained in the Compromise Agreement and the related provisions of the Senate bill and the House bills are noted, except for clerical corrections, conforming changes made necessary by the Compromise Agreement, and minor drafting, technical, and clarifying changes.

The House bill would require the Secretary of Veterans Affairs (hereinafter, "Secretary") to certify each fiscal year that sufficient resources are available at the VA health care facilities where the majority of these veterans would seek care.

Further, the bill would streamline the process and notification requirements and allow proceeds from an enhanced-use lease to be credited to accounts for use by VHA, VBA or NCA as appropriate. The bill would allow individual VA facilities to be reimbursed for the expenses incurred by the development and execution of enhanced-use leases.

Compromise Agreement

Section 202 of the Compromise Agreement adopts the provisions of the House bill which streamline the approval process for enhanced use leases in VHA. The provisions concerning the expansion of this authority to properties of NCA and VBA have been omitted due to mandatory spending concerns.

SIMPLIFICATION OF ANNUAL REPORT ON LONG-RANGE HEALTH PLANNING

Current Law

Included in that report is a five-year strategic plan for the provision of health care services to veterans, a plan for the coordination of care among the geographic health care regions of the Department, a profile of each such region, any planned changes to the mission of any medical facility of the Department, and a listing of the 20 VA major medical facility projects with the highest priority.

Senate Bill

The Senate bill contains no comparable provision.

Subtitle B—Project Authorizations

AUTHORIZATION OF MAJOR MEDICAL FACILITY PROJECTS

Current Law

Section 8104(2) of title 38, United States Code, requires Congressional authorization of any VA major medical facility construction project.

Senate Bill

Section 211 of the Senate bill, as reported, would authorize the following major construction projects:

Location	Purpose	Cost

Beckley, WV	New Long-Term Care Facility	20,000,000

Section 3 of H.R. 1720, as amended, would authorize the following major construction projects:

Location	Purpose	Cost
Chicago, IL	New Inpatient Bed Tower	\$98,500,000
San Diego, CA	Seismic Corrections, Building 1.	48,600,000
West Haven, CT	Renovate Inpatient Wards & Consolidate Medical Research Facilities.	50,000,000
Columbus, OH	New Medical Facility	90,000,000
Pensacola, FL	New VA-Navy Joint Venture Outpatient Clinic.	45,000,000

Compromise Agreement

Section 211 of the Compromise Agreement authorizes the major construction projects for Lebanon, Pennsylvania; Beckley, West Virginia; Chicago, Illinois; San Diego, California; West Haven, Connecticut; and Pensacola, Florida.

AUTHORIZATION OF MAJOR MEDICAL FACILITY LEASES

Current Law

Section 8104 of title 38, United States Code, requires Congressional authorization of any VA medical facility lease with an annual lease payment of more than \$600,000.

Senate Bill

Section 212 of the Senate bill, as reported, would authorize the following leases:

Location	Purpose	Cost
Denver, CO	Relocate Health Administration Center.	\$4,080,000
Pensacola, FL	Relocate Outpatient Clinic ...	3,800,000

Section 3 of H.R. 1720, as amended, would authorize the following leases:

Location	Purpose	Cost

Clark County, NV	Multi-specialty Outpatient Clinic.	6,500,000
Aurora, CO	Regional Federal Medical Center.	30,000,000

Compromise Agreement

Section 212 of the Compromise Agreement authorizes the leases for Charlotte, North Carolina, and Boston, Massachusetts.

The Compromise Agreement contains the provision of Section 211 of H.R. 1720, as amended, to authorize a major construction project for Pensacola, Florida. It was determined that no lease authority for the Pensacola site was necessary. Further, the Compromise Agreement would not authorize a lease supporting relocation and expansion of the Health Administration Center (HAC) in Denver, Colorado. The Committees believe the Department has not justified the continuing expansion of activities at the HAC. The Committees are concerned that this administrative function, originally authorized to process reimbursement claims for the Civilian Health and Medical Program for the VA (CHAMPVA), has inflated its activities well beyond its original responsibilities. The Committees urge VA to reconsider whether the long-term obligation of leased space and the significant growth of staff at the HAC, as opposed to other methods of accomplishing these various tasks, are warranted.

The Compromise Agreement generally follows the Senate language on the Regional Federal Medical Center lease at the former Fitzsimons Army Medical Center in Aurora, Colorado, pending a decision by the Secretaries of Veterans Affairs and Defense on the nature of any joint venture undertaking at the site. However, advance planning is authorized for this project under section 213 of the Compromise Agreement.

ADVANCE PLANNING AUTHORIZATIONS

Current Law

Section 8104(2) of title 38, United States Code, requires Congressional authorization of all VA major medical facility construction project.

Senate Bill

The Senate bill contains no similar provisions.

House Bill

Section 3 of H.R. 1720, as amended, would authorize major construction projects in Columbus, Ohio; Denver (Aurora), Colorado; and the lease of a Multi-specialty Outpatient Clinic in Clark County (Las Vegas), Nevada.

Compromise Agreement

Section 213 of the Compromise Agreement authorizes advance planning funds for fiscal year 2004 for purposes of developing new medical facilities at the following locations:

Location	Purpose	Cost
Columbus, OH	Advance Planning	\$9,000,000
Las Vegas, NV	Advance Planning	25,000,000
Pittsburgh, PA	Advance Planning	9,000,000
Denver (Aurora), CO	Advance Planning	26,000,000
East Central Florida	Advance Planning	17,500,000

The Committees concluded these projects, while warranted, require further development. The Committees believe these projects should be considered high priorities from VA's ongoing review of future health care infrastructure needs, the Capital Asset Realignment for Enhanced Services (CARES) initiative.

Given VA's documented plan to pursue significant capital investments and improvements in health care infrastructure and the Committees' understanding that the Appropriations Committees of the House and Senate are hesitant to provide funds for new VA medical facility construction prior to the completion of the CARES process, the Compromise agreement authorizes \$86,500,000 to allow for planning of projects at these sites.

AUTHORIZATION OF APPROPRIATIONS

Current Law

Section 8104(2) of title 38, United States Code, requires Congressional authorization of appropriations for VA major medical facility projects.

Senate Bill

Section 213 of the Senate bill would authorize \$34,500,000 for fiscal year 2004 for projects authorized and \$4,984,000 for the leases authorized by this bill.

House Bill

Section 3 of H.R. 1720, as amended, would authorize \$332,100,000 to be appropriated in fiscal year 2004 for the projects authorized by this bill.

Compromise Agreement

Section 214 of the Compromise Agreement authorizes \$276,600,000 for fiscal year 2004 for the major construction projects authorized in section 211 of the Compromise Agreement. In addition, section 214 of the Compromise Agreement authorizes the appropriation of \$86,500,000 for advanced planning projects identified in section 213 of the Compromise Agreement.

Subtitle C—Capital Asset Realignment for Enhanced Services Initiative

AUTHORIZATION OF MAJOR CONSTRUCTION PROJECTS IN CONNECTION WITH CAPITAL ASSET REALIGNMENT INITIATIVE

Current Law

Section 8104(2) of title 38, United States Code, requires Congressional authorization of all VA major medical facility projects.

Senate Bill

Section 402 of the Senate bill would authorize the Secretary to carry out major construction projects outlined in the final report on the CARES initiative. This authority would be subject to a 60-day advance notification to Congress. The Secretary would be required to submit a list containing each major project in order of priority, based on the criteria specified in the bill. The bill also would add a provision authorizing multi-year contract authority for major construction projects.

House Bill

The House bills contain no comparable provisions.

Compromise Agreement

Section 221 of the Compromise Agreement follows the Senate language with modifications. The Compromise Agreement would require a 45-day advance notification to Congress prior to carrying out major medical facility construction projects selected by the Secretary. The Secretary would be required to submit a one-time report to Congress by February 1, 2004, that lists each proposed major construction project in order of priority. The Compromise Agreement establishes these priorities as follows: (a) to replace or enhance a facility necessitated by

the loss, closure or other divestment of a VA medical facility currently in operation; (b) to remedy life-safety deficiencies, including seismic, egress, and fire deficiencies; (c) to provide health care services to an underserved population; (d) to renovate or modernize facilities, including providing barrier free design, improving building systems and utilities, or enhancing clinical support services; (e) to further an enhanced-use lease or sharing agreement; and (f) to give the Secretary discretion to select other projects of importance in providing care to veterans.

The authority to enter into any major medical facility construction contracts for projects selected under the authority of section 221 of the Compromise Agreement would expire on September 30, 2006.

ADVANCE NOTIFICATION OF CAPITAL ASSET REALIGNMENT ACTIONS

Current Law

There is no comparable provision in current law.

House Bill

The House bills contain no comparable provisions.

Compromise Agreement

Section 222 of the Compromise Agreement follows the Senate language with modifications. VA would be required to notify Congress in writing of actions under the CARES initiative that would result in medical facility closures, significant staff realignments or medical facility consolidations. The Compromise Agreement would prohibit such actions for 60 days (or 30 days of continuous session of Congress) after such notifications are made.

SENSE OF CONGRESS AND REPORT ON ACCESS TO HEALTH CARE FOR VETERANS IN RURAL AREAS.

Current Law

There is no comparable provision in current law.

Compromise Agreement

Section 223 of the Compromise Agreement would express the sense of Congress recognizing the difficulties in access to VA health care faced by veterans residing in rural areas and require VA to report to the Committees on Veterans' Affairs with a plan of action to improve access to health care for veterans residing in rural areas. A report of VA's plan to improve access to health care for these veterans would be due not later than 120 days after the date of enactment of this Act.

Compromise Agreement

Section 231 of the Compromise Agreement follows the House language and would add a requirement for plans for the Florida Pan-

handle and North Central Washington. The due date of the report required would be adjusted in section 231 of the Compromise Agreement to April 15, 2004.

Section 7401 of title 38, United States Code, authorizes VA to appoint medical care personnel, under title 5, United States Code, or title 38, United States Code, depending on the duties of such personnel.

Senate Bill

Section 301 of the Senate bill would modify title 38 to authorize the appointment of psychologists, kinesiologists and social workers, under title 38 provisions as opposed to title 5 provisions.

House Bill

The House bills contain no comparable provisions.

Compromise Agreement

Section 301 of the Compromise Agreement follows the Senate language with modifications.

The Compromise agreement reflects two important policy goals. First, VA will be permitted to hire clinical staff in a timely fashion through use of the direct appointment authority provided in title 38, United States Code. Second, employee representatives will be afforded an opportunity to participate in a dialogue and process with VA management to determine the best system under which to promote the clinicians appointed under this section.

The Committees believe that VA management and the promotion policy for clinical staff can benefit from interactions with employee representatives. The Committees would allow the Secretary the discretion to develop a system for judging the merits of an individual's advancement in VA, provided that the Secretary reports to the Committees the actions taken under this authority.

The bill would provide for an effective date of 180 days from enactment.

Compromise Agreement

Section 302 of the Compromise Agreement follows the House language with modifications that would redefine “medical care” occupations as “health care” occupations and eliminate provisions that would provide for residencies and internships and reimbursement of continuing professional education expenses.

SUPPLEMENTARY MATTERS

SAN JUAN, PUERTO RICO VA MEDICAL CENTER

In 1999, Congress provided \$50,000,000 to the VA Medical Center in San Juan, Puerto Rico, to assist that facility in correcting numerous structural safety issues. Since then, VA has spent \$4,000,000 of those funds on the design and planning of a bed tower that will alleviate the strain on the older bed tower currently in use. The remaining \$46,000,000 will be used for the tower's construction, with a projected Spring 2004 groundbreaking. The Committees understand that the Secretary has pledged at least an additional \$25,000,000 to enhance this project and minimize any reduction of total beds at this facility. Even with the completion of this construction, the Committees are advised that additional seismic and utility upgrades are needed at the San Juan VA. The Committees encourage the Secretary to honor this pledge and continue the practice of providing high quality services to the veterans of Puerto Rico.

Mr. GRAHAM of Florida. Madam President, I rise today to urge swift passage of S. 1156, which is essentially a conference report on various veterans' health care measures. This bill will dramatically assist the Department of Veterans Affairs in providing quality health care to our Nation's veterans. I would like to highlight some of the key provisions.

The compromise agreement would authorize \$17.5 million in advanced planning funds for a new medical facility in East-Central Florida. While this is only an authorization, I note that the VA-HUD appropriations bill will likely contain an unspecified pot of construction funding—up to \$600 million total. These funds will likely be used for East-Central Florida and other worthy projects stemming from VA's realignment effort.

Veterans living in East-Central Florida are in dire need of a full-fledged VA hospital. One VA report found that since 1996, "the Central Florida market sustained the greatest workload expansion of the entire VA system—105 percent." Other VA studies have deemed the region as "the logical choice for infrastructure investment for all major Inpatient and Outpatient categories." The decision about where to place a new VA hospital in this region falls to VA, but I encourage Secretary Principi to carefully study all the options to ensure that the most appropriate location is chosen.

The demand for care in East-Central Florida heretofore has also been validated by the Capital Asset Realignment for Enhanced Services (CARES) process. CARES is a multi-stage analysis that VA has undertaken of its assets and infrastructure nationwide, for the purposes of making according adjustments to meet the projected health

care needs of veterans over the next 20 years. The process has reached its final stages, with the release of a Draft National Plan currently under review by a commission.

The CARES initiative will have profound ramifications for hospitals all across the country. As such, the compromise agreement includes a provision that I fought for, granting Congress a 60-day notice and wait period before commencing any closures or consolidations that result from CARES recommendations. It is imperative that Congress have a role in this process, as the delivery of health care to our nation's veterans will be greatly affected by its outcome. This became particularly apparent when the Draft National Plan was unveiled, revealing the targeting for closure of up to 6,000 beds nationwide—including some 1,500 long-term care and 800 psychiatry beds. As long-term care and mental health were not factored into the original CARES model, many questions were raised about the validity of the process.

The Veterans Health Care, Capital Asset, and Business Improvement Act of 2003 would also authorize the construction of a comprehensive outpatient medical care facility at the Pensacola Naval Air Station, in Pensacola, FL. The clinic, as envisioned, would be a joint venture between VA and the Department of the Navy. This area of my home state is greatly underserved in terms of medical facilities for servicemembers and veterans, and I am pleased to be a part of bringing vital health care services to the region.

Because of the need for quality, accessible hospital services for veterans in the Pensacola area and surrounding counties, this bill would require VA to develop a plan to meet their inpatient needs. While there is no doubt that the VA-Navy clinic would provide vital outpatient services, inpatient care will still be lacking. This provision seeks to address that facet of the health care continuum for veterans in the Panhandle.

Another important provision of the compromise agreement would expand VA's assisted living pilot program to one additional site. The assisted living pilot program is designed to help the large numbers of men and women in the VA system over the age of 65, who either need long-term care now or potentially will need it in the future. The pilot program was first established through The Veterans Millennium Health Care and Benefits Act, which gave VA clear authority to furnish an assisted living service, including to the spouses of veterans.

The CARES Draft National Plan also puts emphasis on assisted living programs. No fewer than 19 sites are proposed to be converted into assisted living facilities. The assisted living pilot program seeks to help VA address inequities in availability of noninstitutional services by developing models for proliferating the program nationwide. I am hopeful that Network 8 will

apply to be the next pilot program. There is a great need for long-term care services in my home state of Florida.

I am proud to have worked on this valuable piece of legislation for our Nation's veterans, and I urge my colleagues to support it.

Mr. INOUE. Madam President, I commend Senator ARLEN SPECTER and the Committee on Veterans Affairs for their efforts in support of S. 1156, the Veterans Health Care Authorities Extension and Improvement Act of 2003, which would improve the provision of long-term health care for veterans by the Department of Veterans Affairs.

I would like to take this opportunity to comment on the section of S. 1156 that authorizes the VA to provide Filipino veterans residing in the United States the same medical benefits that are currently provided to veterans of the Armed Forces of the United States. Approximately 9,500 Filipino veterans residing in the United States would be eligible for these benefits.

Many of you are aware of my continued support and advocacy on behalf of the Filipino World War II veterans, and the importance of addressing their plight. As an American, I believe the treatment of Filipino World War II veterans is bleak and shameful. Throughout the years, I have sponsored several measures to rectify the wrongs committed against these World War II veterans, and I am grateful to the committee for the assistance and consideration given to my past initiatives. While some strides have been made, I believe more needs to be done to assist these veterans who are in their twilight years. Of the 120,000 who originally served in the Commonwealth Army during World War II, approximately 59,899 Filipino veterans currently reside in the United States and the Philippines. According to the Department of Veterans Affairs, the Filipino veteran population is expected to decrease to approximately 20,000, or roughly one-third of the current population, by 2010.

I support the provision in S. 1156 that authorizes the VA to provide Filipino veterans residing in the United States the same medical benefits that are currently provided to veterans of the Armed Forces of the United States. However, I remain concerned that these benefits are restricted to only those veterans residing in the United States. In my view, a distinction should not be made between veterans residing in the United States and those residing in the Philippines.

As a result of a citizenship statute enacted by the Congress in 1990, some Filipino veterans who were able to travel came to the United States to become United States citizens. At the same time, many other Filipino World War II veterans were unable to travel to the United States and take advantage of the naturalization benefit because of their advanced age. The law was subsequently amended in the Fis-

cal Year 1993 Departments of State, Justice, Commerce and the Judiciary Appropriations Act, Public Law 102-395, to allow the naturalization process for these veterans to occur in the Philippines. Since then, a distinction has been made, and benefits have been provided to only those Filipino veterans residing in the United States.

I believe it is unfair to make this distinction. The Commonwealth Army of the Philippines was called to serve with the United States Armed Forces in the Far East during World War II under President Roosevelt's July 26, 1941, military order. Together, these gallant men and women stood in harm's way with our American soldiers to fight our common enemies during World War II. Because all Filipino veterans stood in equal jeopardy during World War II, I do not believe we should draw a distinction based on their current residency in the U.S. or in the Philippines. All of them were at equal risk, and so all should receive equal benefits.

Accordingly, I introduced S. 68, the Filipino Veterans' Benefits Improvements Act of 2003, which provides health and disability compensation benefits that are similar to the provision included in S. 1156, but without limitations based on the residency of the veterans. I strongly urge Chairman SPECTER and members of the Committee to give consideration to S. 68, and to work with me in the coming year to provide health benefits to veterans residing in the Philippines.

Heroes should never be forgotten or ignored, so let us not turn our backs on those who sacrificed so much. Many of the Filipinos who fought so hard for our nation have been honored with American citizenship. Let us now work to repay all of these brave men and women for their sacrifices by providing them the veterans' benefits they deserve.

Mr. THOMAS. Madam President, I ask unanimous consent that the substitute amendment which is at the desk be agreed to, the committee substitute, as amended, be agreed to, the bill, as amended, be read a third time and passed, the amendment to the title as reported be amended with the amendment at the desk, the title amendment, as amended, be agreed to, the motions to reconsider be laid upon the table en bloc, and that any statements relating to the bill be printed in the RECORD.

The PRESIDING OFFICER. Without objection, it is so ordered.

The amendment (No. 2203) in the nature of a substitute was agreed to.

(The amendment is printed in today's RECORD under "Text of Amendments.")

The committee amendment in the nature of a substitute, as amended, was agreed to.

The amendment (No. 2204) was agreed to, as follows:

AMENDMENT NO. 2204

for veterans, to authorize major construction projects and other facilities matters for the Department of Veterans Affairs, to enhance and improve authorities relating to the administration of personnel of the Department of Veterans Affairs, and for other purposes.”.

The bill (S. 1156), as amended, was read the third time and passed.

IMPROVING BENEFITS UNDER LAWS ADMINISTERED BY THE SECRETARY OF VETERANS AFFAIRS

Mr. THOMAS. Madam President, I ask unanimous consent that the Veterans' Affairs Committee be discharged from further consideration of H.R. 2297 and the Senate proceed to its immediate consideration.

The PRESIDING OFFICER. Without objection, it is so ordered. The committee is discharged.

The clerk will report the bill by title.

The assistant legislative clerk read as follows:

A bill (H.R. 2297) to amend title 38, United States Code, to improve benefits under laws administered by the Secretary of Veterans Affairs, and for other purposes.

There being no objection, the Senate proceeded to consider the bill.

Mr. SPECTER. Madam President, I have sought recognition today to explain briefly the provisions of H.R. 2297, the proposed Veterans Benefits Act of 2003, that the Ranking Member of the Committee on Veterans Affairs, Senator GRAHAM of Florida, and I propose be approved, as amended, by the Senate. H.R. 2297, as so amended and as presented to the Senate today, incorporates agreements reached between the Senate Committee of Veterans Affairs, which I am privileged to chair, and our counterpart Committee in the House of Representatives, on legislation relating to the provision of non-healthcare-related benefits by the Department of Veterans Affairs.

H.R. 2297, as amended, contains provisions derived from S. 1132, the proposed Veterans Benefits Enhancements Act of 2003, as approved by the Senate on October 31, 2003, and S. 1156, as reported by the Committee on Veterans Affairs on November 10, 2003. It also contains provisions derived from H.R. 2297, as approved by the House on October 8, 2003; H.R. 1257, as approved by the House on May 22, 2003; and H.R. 1460, as amended from the bill approved by the House on June 24, 2003. Inasmuch as S. 1132, as approved by the Senate earlier this year, had itself incorporated provisions derived from 11 Senate bills—meaning that H.R. 2297 contains provisions derived from 15 separate bills—it is apparent that this bill represents the work and ideas of many sponsors with many differing interests. I thank the Ranking Member, Senator GRAHAM of Florida, and the Chairman and Ranking Member of the House Committee on Veterans Affairs, Representative CHRIS SMITH of New

Jersey and Representative LANE EVANS of Illinois, for the spirit of cooperation and bipartisanship that they showed in addressing the sometimes-competing interests in play as 15 pieces of legislation were knitted into a single, coherent whole.

Since this is a lengthy bill—over 50 pages—I will not endeavor in this statement to explain in detail each and every provision. Rather, I will discuss the highlights briefly in this statement, and refer my colleagues to a Joint Explanatory Statement. I ask unanimous consent to print in the RECORD a detailed explanation of the bill as amended.

There being no objection, the material was ordered to be printed in the RECORD, as follows:

EXPLANATORY STATEMENT ON SENATE AMENDMENT TO HOUSE BILL, H.R. 2297, AS AMENDED

H.R. 2297, as amended, the Veterans Benefits Act of 2003, reflects a Compromise Agreement reached by the House and Senate Committees on Veterans Affairs (“the Committees”) on the following bills considered in the House and Senate during the 108th Congress: H.R. 1257; H.R. 1460, as amended; H.R. 2297, as amended (“House Bill”); and S. 1132, as amended (“Senate Bill”). H.R. 1257 passed the House on May 22, 2003; H.R. 1460, as amended, passed the House on June 24, 2003; H.R. 2297, as amended, passed the House on October 8, 2003; S. 1132, as amended, passed the Senate on October 31, 2003.

The House and Senate Committees on Veterans Affairs have prepared the following explanation of H.R. 2297, as amended (“Compromise Agreement”). Differences between the provisions contained in the Compromise Agreement and the related provisions of H.R. 1257, H.R. 1460, as amended, H.R. 2297, as amended, and S. 1132, as amended, are noted in this document, except for clerical corrections, conforming changes made necessary by the Compromise Agreement, and minor drafting, technical, and clarifying changes.

TITLE I: SURVIVOR BENEFITS

RETENTION OF CERTAIN VETERANS SURVIVOR BENEFITS FOR SURVIVING SPOUSES REMARRYING AFTER AGE 57

Current Law

Section 103(d) of title 38, United States Code, prohibits a surviving spouse who has remarried from receiving dependency and indemnity compensation (“DIC”) and related housing and education benefits during the course of the remarriage. This benefit may be reinstated in the event the subsequent marriage is terminated. Public Law 107-330 extended to surviving spouses who remarry after age 55 continuing eligibility under the Civilian Health and Medical Program of the Department of Veterans Affairs (“CHAMPVA”).

House Bill

Section 6 of H.R. 2297, as amended, would allow a surviving spouse who remarries after attaining age 55 to retain the DIC benefit. Spouses who remarry at age 55 or older prior to enactment of the bill would have one year from the date of enactment to apply for reinstatement of DIC benefits. The amount of DIC would be paid with no reduction of certain other Federal benefits to which the surviving spouse might be entitled.

Senate Bill

The Senate Bill contains no comparable provision.

Compromise Agreement

Section 101 of the Compromise Agreement would provide that a surviving spouse upon

remarriage after attaining age 57 would retain DIC, home loan, and educational benefits eligibility. Surviving spouses who remarried after attaining age 57 prior to enactment of the Compromise Agreement would have one year to apply for reinstatement of these benefits.

BENEFITS FOR CHILDREN WITH SPINA BIFIDA OF VETERANS OF CERTAIN SERVICE IN KOREA

Current Law

Chapter 18 of title 38, United States Code, authorizes the Department of Veterans Affairs (“VA”) to provide benefits and services to those children born with spina bifida whose natural parent (before the child was conceived) served in the Republic of Vietnam between January 9, 1962 and May 7, 1975. Benefits and services are authorized due to the association between exposure to dioxin and the incidence of spina bifida in the children of those exposed. Children born with spina bifida whose parent was exposed to dioxin and other herbicides during military service in locations other than the Republic of Vietnam do not qualify for VA benefits and services.

House Bill

Section 12 of H.R. 2297, as amended, would permit children born with spina bifida whose parent (before the child was conceived) served in an area of Korea near the demilitarized zone (“DMZ”) between October 1, 1967 and May 7, 1975, to qualify for benefits in the same manner as children whose parent served in the Republic of Vietnam.

Senate Bill

Section 101 of S. 1132, as amended, would permit children with spina bifida whose parent (before the child was conceived) served in or near the DMZ in Korea during the period beginning on January 1, 1967, and ending on December 31, 1969, to qualify for benefits in the same manner as children whose parent served in the Republic of Vietnam. The Senate Bill would require the Secretary of Veterans Affairs to make determinations of exposure to herbicides in Korea in consultation with the Secretary of Defense.

Compromise Agreement

Section 102 of the Compromise Agreement would generally follow the Senate language. However, under the Compromise Agreement, the time period for qualifying service in or near the DMZ is changed to service which occurred during the period beginning on September 1, 1967, and ending on August 31, 1971. The Committees note that although use of herbicides in Vietnam ceased in 1971, Vietnam-era veterans who served until May 7, 1975, are presumed to have been exposed to residuals. Similarly, even though herbicide use in or near the Korean DMZ ended in 1969, the Committees believe it is appropriate to extend the qualifying service period beyond 1969 to account for residual exposure.

The Committees also note that the Secretary of Defense has identified the following units as those assigned or rotated to areas near the DMZ where herbicides were used between 1968 and 1969: combat brigades of the 2nd Infantry Division (1-38 Infantry, 2-38 Infantry, 1-23 Infantry, 2-23 Infantry, 3-23 Infantry, 3-32 Infantry, 1-9 Infantry, 2-9 Infantry, 1-72 Armor, and 2-72 Armor); Division Reaction Force (4-7th Cavalry, Counter Agent Company); 3rd Brigade of the 7th Infantry Division (1-17th Infantry, 2-17 Infantry, 1-73 Armor and 2-10th Cavalry); and Field Artillery, Signal and Engineer support personnel.
